training

## CUSTOM30 TRAINING

FasTrak is pleased to introduce Custom30 training. Custom30 is a new, cost-effective training option that allows you to customize training to the specific needs of your company. Custom30 training is ideal for companies who have immediate training needs, who have the need to regularly train new employees, or who do not have the budget to purchase a standard onsite training class.

## HOW DOES IT WORK?

Purchase training credit hours, which are applied to webinar training in 30 minute increments up to 2 hours per session. Training credit hours never expire, and entitle you to include an unlimited number of participants in training sessions.

## TRAINING TOPICS

Design your own Custom30 training by choosing the topics specific to your company's needs.

### Custom30 Training Benefits:

- Purchase only the training you need
- Tailor training content to your exact needs

### Custom30 Training Includes:

- ✓ Customized training, delivered via web conference
- ✓ Non-expiring training credits, to be used at any time
- ✓ Knowledgeable, experienced instructor
